UNIV ILL

NOTE

An attempt has been made to record concerning each graduate (1) full name, (2) degree or degrees, (3) present occupation, (4) date and place of birth, (5) names of parents and date and place of birth of each, (6) preparation for University, (7) membership in societies and fraternities, (8) university honors, (9) services and achievements, (10) membership and office in important organizations, (11) date and place of marriage, with name of husband or wife, (12) names of children and dates of births and deaths, and (13) present address.

Unless otherwise noted, all degrees were received at Illinois.

Under (7) much material that may seem trivial has been included because of the interest attaching to details of undergraduate life. Two addresses have in most cases been given, the *home address* being more or less permanent, the *business address*, being, especially for teachers, subject to frequent change.

An asterisk (*) indicates that the person before whose name it stands is dead. A dagger (†) indicates that the person after whose biographical sketch it appears has not responded to letters and that the sketch has been prepared from such information as could be obtained elsewhere. Since mail addressed to these persons has not been returned the addresses are presumably correct. A double dagger (‡) indicates that the address is the latest known, but incorrect. Biographies and addresses were revised in accordance with information received on or before May 9, 1919 for the class of 1872, and until May 20, 1919, for the class of 1918.

In many cases the subjects of sketches have kindly submitted detailed lists of writings so long that they could not be included. These, together with all other material used in compiling this and earlier editions of the Alumni Record, are preserved in the office of the Alumni Association. Additional material, corrections, photographs—anything of biographical significance—sent to that office will be filed and preserved.

The Editor is indebted to all who have helped in the compiling of the book, especially to Thomas Arkle Clark, '90, for information about alumni in the war, and to Carl Stephens, '12, for daily assistance from the beginning to the end of the task, and for compiling the war service index and the accompanying statistics.

May, 1919.
